2021 Fall Price increase notice

July 1st, 2021

To our valued Dealers,

We are announcing a 10% price increase on all our standard products starting on 8-1-2021, see attached price list.

Because of the market pricing volatility we did not have our usual increase in April.

We have invested lots of time, money and resources in efficiency & lean manufacturing in the last 2 years. CURBO Parking Curbs is now producing 3 times the amount of product per man hour compared to 2 years ago. We did all these improvements so you can enjoy the minimal price up till now but the time has come to pass some of these higher costs on.

Here are some our material costs that have gone up significantly in the last year:

- ◆ Rebar pricing has increased as much as 75% over a year ago
- ◆ Cement pricing has gone up over 10%, we had a small increase as usual this spring and then another increase on August 1st because of high demand.
- ◆ Most of our other materials have increased anywhere from 5% - 200% over a year ago

Also effective on August 1st, there will be a \$1.00 freight increase per item above your current rate on shipping costs for full semi loads delivered to your location. **Freight costs are now \$4.00 per curb (All 12 models) & \$3.00 each for smaller concrete items for full semi load deliveries to all CURBO dealer locations in America.** You are welcome to source your own freight if you want better rates.

If you have installation jobs & jobsite direct deliveries that were quoted or bid on the old pricing we will honor that, just provide a copy of your original quote.

As a valued CURBO Parking Curb dealer you get:

- ◆ Suggested retail over wholesale margin is a 45% markup
- ◆ Free listing and dealer support on www.CurboParkingCurbs.com. Our CURBO Parking Curb website has over 30,000 views per year!
- ◆ Replacement warranty on all Parking Curbs that crack before installation
- ◆ 10-50 mile radius protected dealer territory depending on location
- ◆ 3-5 day delivery after P.O. for all in stock items

New Pricing brackets:

- ◆ **Wholesale, Best Pricing: You must stock** at least our standard 6' curb model & buy full semi loads at a time.
- ◆ **Special Contractor, 35% advantage over Retail.** You must buy full semi loads at a time. If you are in a dealer protected area you will need to purchase through that dealer but we will ship direct to you.
- ◆ **Retail, Partial semi loads** & jobsite direct deliveries & install that are less than a full semi load.

Best Regards,

Elam B Miller, President/CEO,

Covered Bridge Precast LLC,
